Information Services Group (ISG) Names Unisys a Leader in 2025 Private/Hybrid Cloud – Data Center Services Provider Lens™

Unisys distinguishes itself with agile hybrid cloud modernization, AI-integration and comprehensive cybersecurity capabilities in U.S. and U.K. markets

BLUE BELL, Pa., Sept. 9, 2025 – [Unisys](#) (NYSE: UIS) has been named a Leader in the 2025 ISG Provider Lens™ Private/Hybrid Cloud – Data Center Services [quadrant reports](#). These reports spotlight service providers excelling in private cloud, hybrid cloud and data center outsourcing, and Unisys has achieved this level of recognition for the fifth consecutive year.

ISG defines leaders as companies with a comprehensive product and service offering, innovative strength, a strong market presence and competitive strategies that position them to win business.

"We continue to push the boundaries of cloud innovation with our transformation expertise and by integrating AI and cloud and data center services that drive real business outcomes," said Manju Naglapur, senior vice president and general manager of cloud, applications & infrastructure solutions. "We're proud to be named as a Leader by ISG for the fifth consecutive year, and we are motivated to continue partnering closely with clients to help them achieve future-ready, resilient cloud infrastructure."

Unisys was recognized as a leader in four market quadrants:

- **U.S. Managed Services for Midmarket:** Unisys has advanced its AIOps-driven approach, using the cloud IT framework to leverage AI and ML that deliver near-zero manual interventions. This approach drastically reduces manual overhead and accelerates resolution times by leveraging AI for real-time event correlation, which lowers the operational cost for clients.
- **U.S. Public Sector Managed Hosting:** Unisys is driving digital transformation for public sector agencies by combining robust integration capabilities and AI-powered solutions to deliver resilient, secure and future-ready hosting infrastructure services tailored to an agency's needs.
- **U.S. Public Sector Managed Services:** Unisys accelerates public sector digital transformation by uniting hybrid cloud modernization expertise – including comprehensive assessments, migration and integration, AI-powered operations, and sector-centric governance.
- **U.K. Managed Services for Midmarket:** Unisys takes a well-integrated approach to cloud transformation through agile deployment and scaling, strong cybersecurity alliances and advanced automation powered by AI and machine learning.

In these reports, Unisys was also recognized as a Product Challenger in several quadrants, such as **U.S. Managed Services – Large Accounts**, **Brazil Managed Services – Large Accounts**, **Germany Managed Hosting – Large Accounts**, **U.S. AI-Ready Infrastructure Consulting** and **Brazil AI-Ready Infrastructure Consulting**. Notably, the company achieved these recognitions in the **U.S.** and **Brazil Managed Services – Large Accounts** for the second consecutive year, demonstrating a lasting impact. Product Challengers are providers that deliver excellent service, strong technology stacks, broad capabilities and a consistent focus on enhancing their market presence.
